

AMENDMENTS TO THE CLAIMS

RECEIVED

DEC 16 2003

TC 1700

1. (Currently Amended) A liquid laundry detergent composition ~~contained within~~ ~~the water soluble body for release upon the dissolution of the water soluble~~ ~~body, the composition comprising:~~

O I P E

WED

at least two layers, said at least two layers comprising in total:

- from about 5 to about 90% of a detergent surfactant; by weight of the composition;
- from about 5 to about 50%, by weight of the composition, of an a colored inorganic electrolyte comprising a transition metal cation, by weight of the composition; and
- from about 1 to about 85% of water, by weight of the composition.

2. (Original) The composition of claim 1, wherein the composition further comprises a hydrotrope.

3. (Original) The composition of claim 1, wherein the composition further comprises a dye.

4. (Original) The composition of claim 1, wherein the detergent surfactant in the composition comprises a mixture of an anionic and a nonionic surfactant.

5. (Original) The composition of claim 4, wherein the ratio of the anionic surfactant to the nonionic surfactant is from about 10:1 to about 1:10.

6. (Original) The composition of claim 1, wherein the volume ratio of the first layer to the second layer is from about 10:90 to about 90:10.

7. (Original) The composition of claim 1, wherein the composition is packaged within a transparent container.

8. (Original) The composition of claim 1, wherein the composition is transparent.

9. (Original) The composition of claim 1, further comprising a third layer.
10. (Original) The composition of claim 1, wherein the third layer is a layer of capsules or emulsion.
11. (Currently Amended) A liquid laundry detergent composition comprising:  
-- at least two layers, said at least two layers comprising in total:
  - i. from about 5 to about 90% of a detergent surfactant; by weight of the composition;
  - ii. from about 1 to about 50% of total electrolyte, by weight of the composition, the electrolyte comprising ~~a colored inorganic~~ an electrolyte comprising a transition metal cation and another electrolyte selected from the group consisting of an additional inorganic electrolyte containing an alkali or alkaline earth metal cation, organic electrolyte, and mixtures thereof, and
  - iii. from about 1 to about 70% of water, by weight of the composition.
12. (Original) The composition of claim 11, wherein the composition further comprises a hydrotrope.
13. (Original) The composition of claim 11, wherein the composition is transparent.
14. (Original) The composition of claim 11, wherein the composition is packaged within a transparent container.
15. (Currently Amended) The composition of claim 11, wherein the electrolyte comprises from about 0.001 to about 10% of the ~~colored inorganic~~ electrolyte comprising a transition metal cation.
